

Data Dictionary

The first column of every downloaded file contains a unique ID that identifies the geography. The column name varies according to the data that has been downloaded.

One of the following columns will be present:

blkgrp

U.S. Census Block Group 12 character ID

tract

U.S. Census Tract 11 character ID

place

U.S. Census Place 7 character ID

county

U.S. Census County 5 character ID

mpo

Unique 8 character ID

county

U.S. Census Congressional District 4 character ID

For all downloads other than Block Groups and Tracts, the second column contains the name of the geography.

name

U.S. Census Name (or MPO Name)

All files contain the following columns. These columns represent the breadth of data available through the [H+T Map](#) and [H+T Fact Sheets](#) with the exception of the five transit measures.*
